

**PIPELIFE AUSTRIA**  
Product range

**Pipe Systems for Inhouse Installation**

**Underfloor/wall heating system FLOORTHERM**

- 1 Insulation for underfloor heating with PE-Xc pipe
- 2 Steel grid with PE-RT pipe
- 3 Nub panel with FT-LIGHT pipe
- 4 Dry system Multiklemm with FT-LIGHT pipe
- 5 Mounting rail for wall heating with FT-LIGHT pipe
- 6 FLOORTHERM distributor
- **Not illustrated:** FLOORTHERM control, Thin-layer renovation system

**Radiator connection with RADOPRESS**

- 7 RADOPRESS multi-layer composite pipe and fittings
- 8 RADOPRESS direct radiator connection

**Heating and cooling lines with C-PRESS**

- 9 C-PRESS the metal press fitting system made from C-Steel

**Hot/Cold water installation  
AQUAPROP/RADOPRESS**

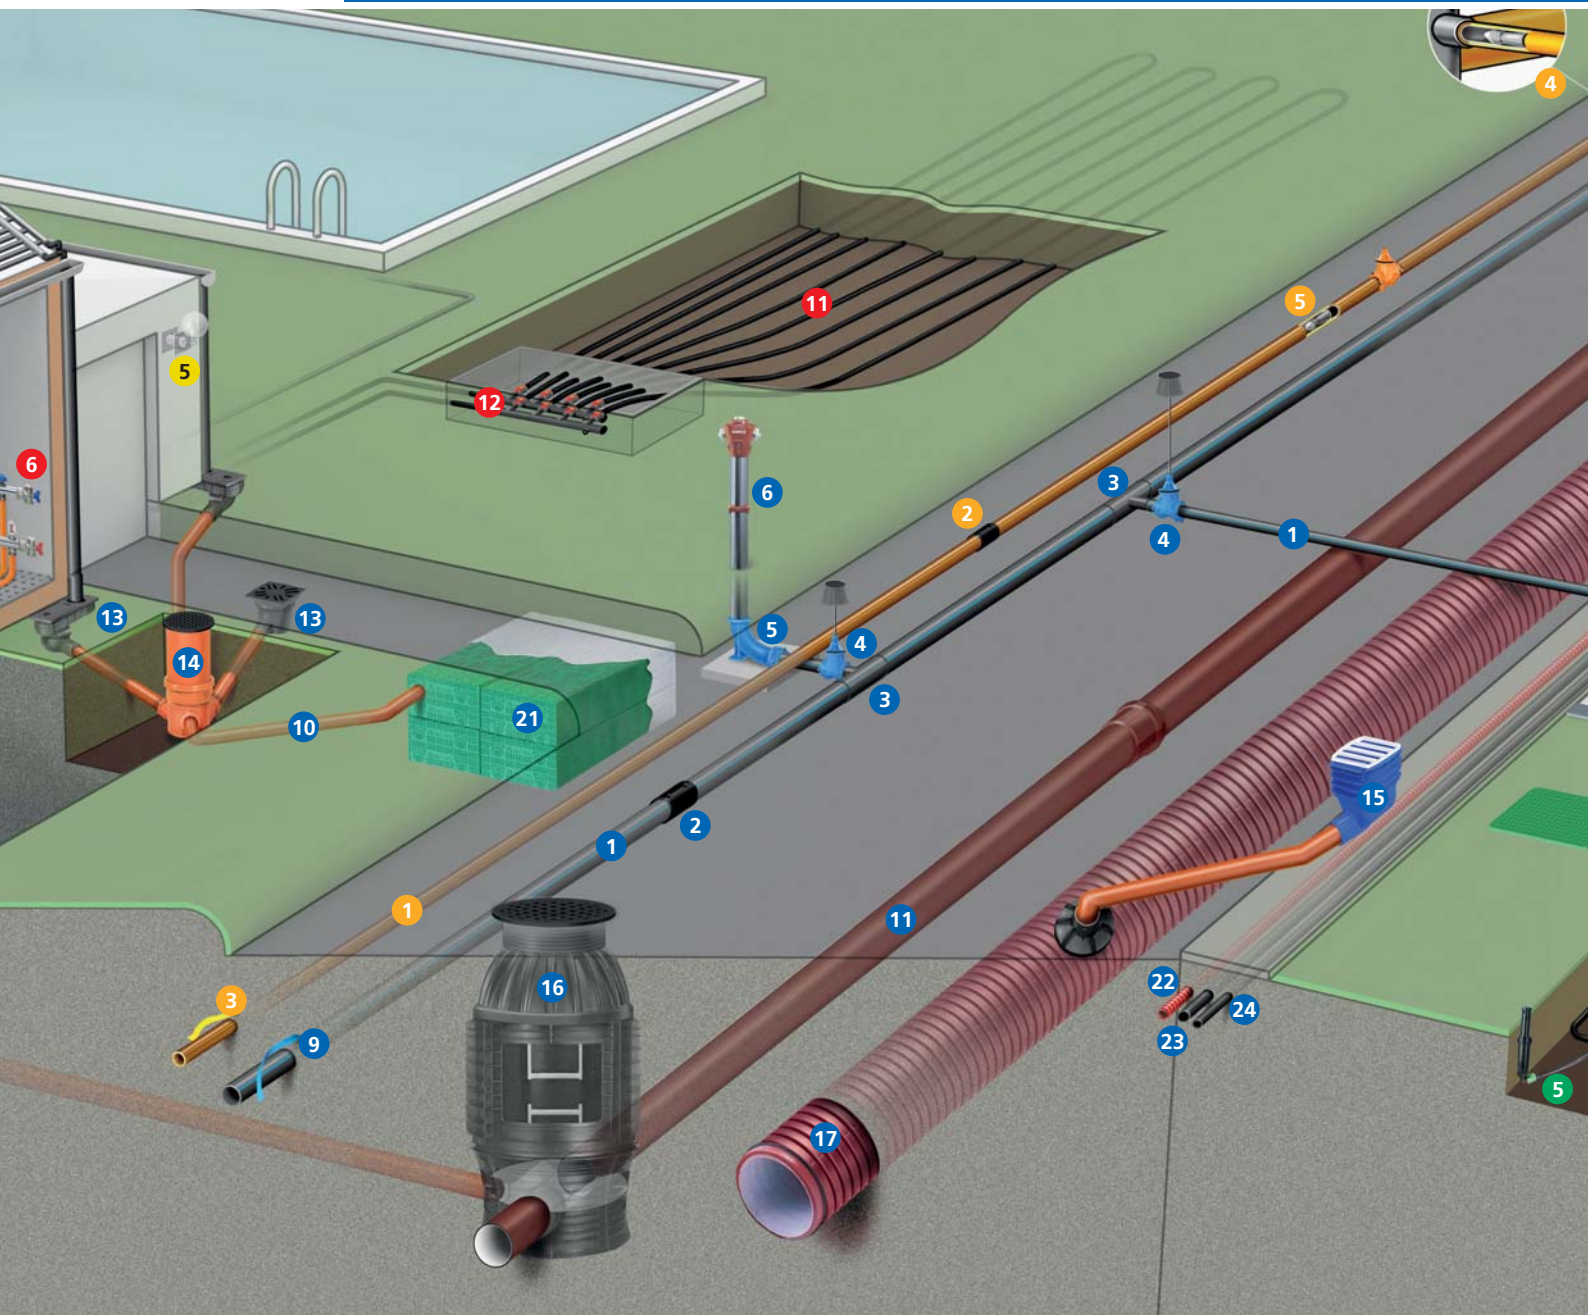

- 10 AQUAPROP pipes and fittings or RADOPRESS pipes and fittings

**Ground collector**

- 11 Ground collector pipe
- 12 Ground collector distributor with shut-off valves

**Controlled living-room ventilation AIRTHERM**

- 16 Air distribution unit
- 17 Flexible ventilation pipe
- 18 Air intake/air release
- 19 Rigid ventilation pipe MASTER 3

**Swimming pool heating system ROOFTHERM**

- 20 Solar tube
- 21 Flow and return distributor set
- 22 Fastening rail with holding clips

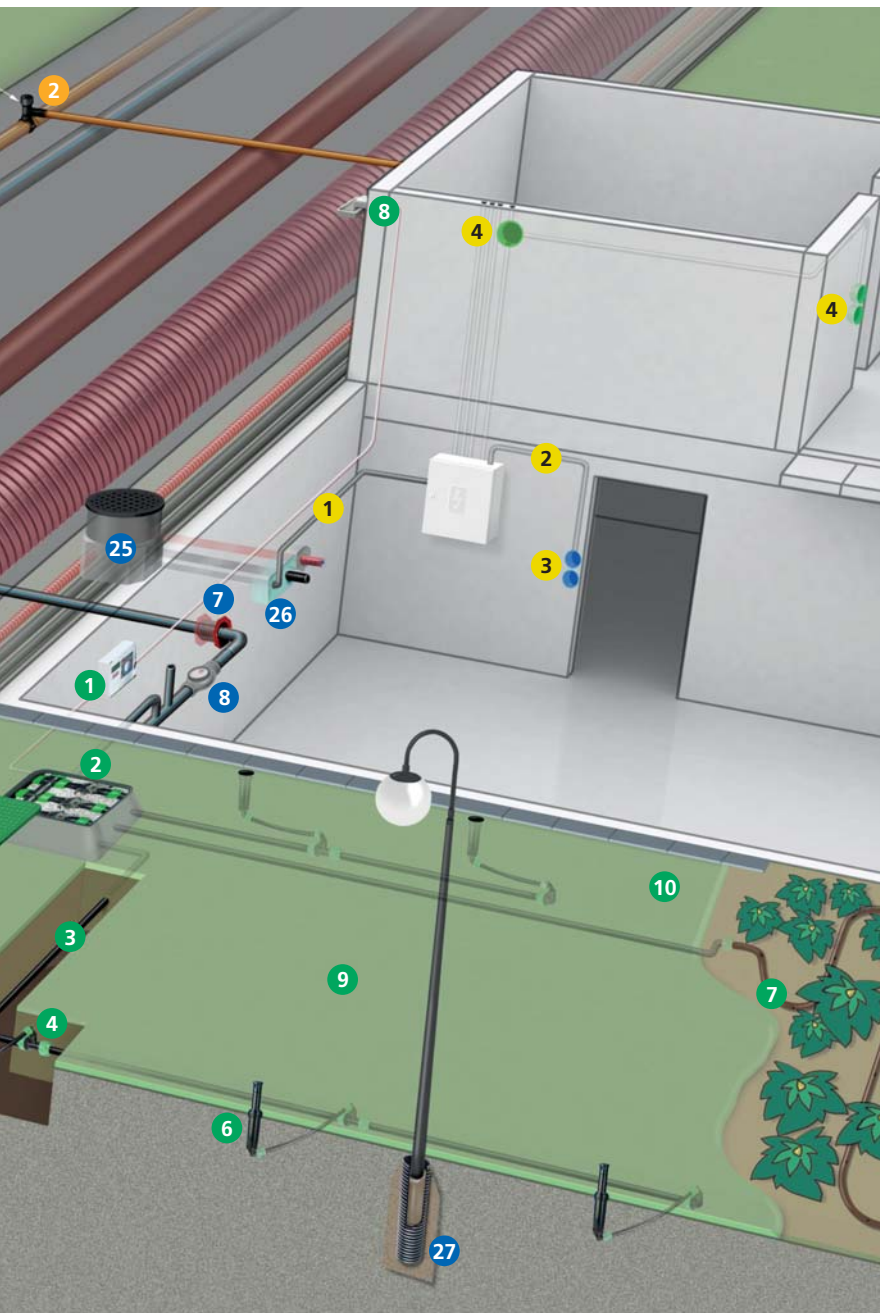

**Soil System MASTER 3**

- 23 Down pipe with MASTER 3 (PP-3-layer soil pipe)
- 24 Connection line with MASTER 3 pipe and fittings
- 25 Venting cowl
- **Not illustrated:** HL siphon program

**Civil Engineering Pipe Systems**

**Water supply**

- 1 PE pressure pipes (available in PE 80, PE 100 and PE 100-RC)
- 2 Electrofusion fittings
- 3 Injected fittings (for butt welding)
- 4 Valves, extension spindles and surface boxes
- 5 Ductile iron fittings for various applications
- 6 Hydrants
- 7 Pipe- and cable ducting system RDS evolution
- 8 Water meter console
- 9 Warning and location tapes
- **Not illustrated:** Spring water collection shafts and drinking water storage tank, "AQUALINE RC ROBUST" pressure pipe system made from PE 100-RC with protective layer, "Push-Fast" PE pressure pipe system with welded-on, restraint socket, PVC pressure pipe system, clamping screw fittings

### Gas Supply

- 1 Gas pipes and fittings made from PE100
- 2 Electrofusion fittings
- 3 Warning and location tapes
- 4 Pipelife Gas-Stop™ for gas service lines
- 5 Pipelife Gas-Stop™ for gas distribution lines
- **Not illustrated:**  
Welding equipment and tools,  
Pipe ducting system

### Irrigation Systems\*

- 1 Irrigation controllers
- 2 Solenoid valves in valve box
- 3 Industrial service water pipes made from PE
- 4 Clamping screw fittings
- 5 Flexible swing pipe
- 6 Pop-up sprinklers and spray heads
- 7 Flexible drip pipe
- 8 Rain sensor
- **Not illustrated:** Irrigation systems for parks,  
sports facilities and golf courses

\*Pipelife Irrigation Systems are only available in Austria.

### Electrical Systems

- 1 Electro installation conduit rigid (on wall installation) and accessories
- 2 Electrical installation conduit flexible PROFILINE (low friction pipe)
- 3 Spelsberg IBT concrete installation system
- 4 Spelsberg cavity wall installation system
- 5 Mounting device for thermal insulation GTI/MPI
- **Not illustrated:**  
Halogen-free electrical installation pipes and accessories  
Metal electrical installation pipes and accessories

### Sewer Systems

- 10 PVC sewer pipes and fittings (SN4 and SN8)
- 11 PP-ML sewer pipes and fittings "PP MASTER" (SN8 and SN12)
- 12 Pipe ducting system RDS evolution
- 13 HL accessories (e.g. rain hopper, yard drain etc.)
- 14 Pipelife small shaft system
- 15 Romold road gully
- 16 Romold PP/PE chambers
- **Not illustrated:** PE sewer pipe system

### Drainage Systems

- 17 Storm water pipe (SN8 up to DN/ID 1.000 mm)
- 18 Drainage pipe system (made from PVC or PE, round or tunnel-shaped, smooth or corrugated)
- 19 Geotextile (made from PP, RVS 08.97.03 approved)

- 20 PE drainage shaft
- 21 Prefabricated infiltration module "STORMBOX" (individual blocks also available)

- **Not illustrated:**  
Erosion protection mats, chambers and pipes for rain water infiltration

### Cable Protection

- 22 Flexible cable conduit system, corrugated (PE or PVC)
- 23 Rigid cable conduit system, corrugated (made from PVC or PE, also with long sleeve)
- 24 LWL duct system (made from PE, inside rills)
- 25 Romold cable chambers
- 26 Sealing compounds for multiple passages
- 27 Foundation pipes

- **Not illustrated:** Microducts, warning and location tapes, cable cover plates, fire protection systems and grounding straps

## Plastic Pipe Systems from Pipelife

### Pipes for Life

Many buildings and supply networks are equipped with products from Pipelife. These pipe networks ensure for the safe supply of power and water and secure the vital circulation, from supply to disposal. With a service life of generations, every Pipelife pipe is a piece of the future that one can rely on. Pipes for Life – that is our motto.

### Pipelife Austria

Pipelife Austria is the leading manufacturer of plastic pipes in Austria. The core competences of the company are the development, production and marketing of high quality plastic pipe systems for a broad range of applications. The product portfolio includes system solutions for the fields of drinking water supply, sewage systems, drainage, gas supply, cable protection, heating, hot water/cold, discharge, electrical installation and irrigation.

### Committed Responsibility

“The people in our country have a right to the greatest possible safety with the supply of power and water, as well as to a clean environment. We feel obligated to this basic principle and therefore pay attention to the durability, resilience and safety of our products. Products from Pipelife Austria represent the highest standard of quality in the market and that benefits all parties concerned – the customers, the contractors and the consumers”, explained Mag. Karl Aigner, CEO of Pipelife Austria.

Besides the relevant standards, Pipelife products must also satisfy the strict national quality regulations. The observance of the quality standards is not only continuously verified in the framework of the Total Quality Management System (TQM), but is also regularly inspected by independent testing institutes.

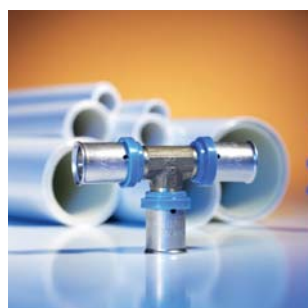

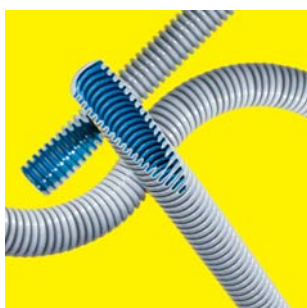

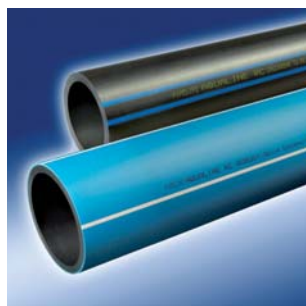

### All from one source

As a system provider, besides the plastic pipes Pipelife Austria also has fittings and accessories for all conceivable applications in the range of products. You can find out more information about the Pipelife Austria product range from our export department and on the Internet at [www.pipelife.at](http://www.pipelife.at).

### A strong background

Pipelife was founded in 1989 and at that time it was a 50:50 Joint Venture of Wienerberger and Solvay. In 2012, Wienerberger – a stock exchange listed group with the focus on building material solutions – took over the full 100% ownership.

The Pipelife Group – an organization with over 2,600 employees – is represented in 26 countries in Europe and the USA.
